

What is it?

registroymprese.it is a portal provided by the Italian Chambers of Commerce which enables web access to registroymprese.it is also a virtual portal that allows you to send electronic files to the Italian Chambers of Commerce: the official and updated information contained in the Business Register, the Defaulters Register, the patents and trademarks data bank and in the European Business Registers.

- **10 million** people listed (entrepreneurs, partners, managers, auditors)
- **6 million** companies listed
- **950,000** company accounts filed each year
- **1 million** local units
- **7 million** registered insolvencies
- **1 million** trademarks
- over **500 thousand** patents
- **18 million** companies in the interconnected European Countries

What can I find on it and how much does it cost?

Here is a list of the main documents available on registroymprese.it:

- **Company reports**, also available in English. They cost **5 €** each, at the most
- **Company dossiers**, the most detailed one costs **11 €**
- **Company accounts**, the latest can be downloaded for **2.50 €**
- **Records** (articles of association, company transfers etc) from **2.50 €**
- **Files** on **partners** and **people** from **0.70 €** to **3 €**

Company reports, company accounts, protests and other official documents: 250,000 people already use www.registroymprese.it daily.

Documents in English

Along with the Italian version, since October 2014 both **official certificates** and **company reports** are also **available in English**, thus offering foreign investors more opportunities to quickly access official information on any Italian business registered at the Chambers of Commerce.

Information include a legal profile of the company (headquarter, registration and founding dates, name of company legal representative and other officials), description of economic activity (based on NACE code), company assets, quality certifications, number of employees.

Legal guarantee

In order to be legally guaranteed, the documents within the Business Register contain a **QR Code**: an individual identification code that allows you to check the correspondence between the document you hold and the original file of the Business Register at the time of the request.

Company monitoring

The **Company changes** section allows you to regularly and automatically check all changes submitted to the Business Register: changes to managers, shares, submission of company accounts, initiation of bankruptcy procedures or changes to locations. With only a **one-off contribution of a few cents** you can monitor a single company, plus **administration fees** for the updated documents in your possession. For example: **30 companies can be monitored only with a one-off payment of 7.5 €.**

Would you like to use all the services available on registroymprese.it? **Go ahead and register!**

Company Information, Dossier or a Financial Statement can be paid by credit card **without registration.**
